

Anything but Ordinary

Retail Packaging

Packaging sells products. Your customers need packaging that is appealing, innovative and distinguishes their brand. That's where we come in. Contact us today!

EXPERTISE For nearly a decade we have printed for the packaging market, creating custom solutions to showcase our client's products, increase sales and make their packaging stand out on the shelf.

SPECIAL EFFECTS Using the highest quality inks & coatings available, we customize and print a wide variety of special effects, including glitter, gloss, pearl, metallic, scratch n sniff, textures, glow-in-the-dark, prism (just to name a few).

R&D Our research & development department focuses full time technical expertise, creating custom inks & coatings especially for use on packaging. We collaborate and work closely with our clients as part of the design process.

PARTNERSHIP We add value, far beyond the special effects we print, by providing education to our partners about the screen printing process and consultation with regard to design and package construction.
